<p>If you reside in a long-term care facility, you pay the same as at a retail pharmacy. You may get drugs from an out-of-network pharmacy, but may pay more than you pay at an in-network pharmacy. You may get drugs from a standard in-network pharmacy, but may pay more than you pay at a preferred in-network pharmacy.</p> <p>Your yearly deductible for Part D (pharmacy) coverage is \$240. You must pay this amount before the cost shares above apply.</p> <p>Note: <i>The Deductible is waived for Generic Tiers (Tiers 1 & 2).</i></p>			
Coverage Gap	Most Medicare drug plans have a coverage gap (also called the “donut hole”). This means that there’s a temporary change in what you will pay for the drugs. The coverage gap begins after the total yearly drug cost (including what our plan has paid and what you have paid) reaches \$3,820. After you enter the coverage gap, you pay 25% of the plan’s cost for the covered brand name drugs and 37% of the plan’s cost for covered generic drugs until your costs total \$5,100, which is the end of the coverage gap. Not everyone will enter the coverage gap.		
Catastrophic Coverage	After your yearly out-of-pocket drug costs (including drugs purchased through your retail pharmacy and through mail order) reach \$5,100, you pay the greater of: 5% of the cost or \$3.40 copay for generic (including brand drugs treated as generic) and an \$8.50 copay for all other drugs.
