

Now that you've got your number, share it with your financial advisor who can help you start planning for retirement.

## Your Number is

# \$1,112,418

### How old are you?

The earlier you start thinking about your future, the easier it will be to get to your number and enjoy retirement.

**60**

### What's your current household income?

The amount of income you receive and the kind of lifestyle you're used to can affect your number.

**\$60,000**

### At what age do you plan to retire?

The average age of retirement in America is 65, but of course, if you retire later you'll be able to earn more towards your number.

**66**

### How much income per year would you like after retirement?

Generally, you need about 75% of your current household income during retirement. Think about what you plan on doing with your days when you're retired. Do you plan on traveling the world, or maybe volunteering near home?

**\$48,000**

### Provide income up to what age?

People live longer these days, so make sure you plan for all of your years of retirement.

**90**
